24 March 1955

MEMORANDUM FOR:

Walter F. Cronin
External Research Staff
Department of State

SUBJECT:

Fletcher School Proposal for
Establishment of the Clayton Center

1. CIA analysts are interested in the subject proposal. Although much of the work contemplated for the new Center would probably not be of interest, that part of the Center's research program which would conduct or stimulate new studies "where needed to enable intelligent judgments to be made on public policy issues" might prove to be quite useful to CIA. Other aspects of the proposed Center conceivably might be of some use to us.

2. Therefore, I would appreciate your advice on the development of the Clayton Center.

WALLACE R. LAMPSHIRE
Office of the Director
Planning and Coordination Staff
